## No Time for Goodbye by Linwood Barclay

This is a gripping mystery which hooked me immediately. It begins with a 14-year old girl waking up one morning to find that her entire family has disappeared. There was never a clue for 25 years and now as an adult, she is still wondering where her mother, father and brother went and why she was left behind. She decides to go on a crime stopper show and suddenly she is plagued with strange phone calls and e-mails and notices a car cruising around her. Her nerves begin to fray and she starts to fear for her own family's safety but people don't believe her. A friend recommended this book and I couldn't put it down. A great read with a surprise solution that slowly unravels. I highly recommend this book.
